## Connecticut Paid Family And Medical Leave Certification for Own Serious Health Condition Health Care Provider Instructions

Employee's Name	Date of Birth
-----------------	---------------

### INSTRUCTIONS for HEALTH CARE PROVIDERS

This form is used to certify a serious health condition in order to qualify for Connecticut Paid Family and Medical Leave (CT PFML). Qualifying serious health conditions and authorized healthcare providers are described below. Answer each question to the best of your medical knowledge, based on your examination of the patient.

#### SERIOUS HEALTH CONDITION

A “**serious health condition**” is defined as a condition that involves inpatient care or continuing treatment by a health care provider.

- “**Treatment**” includes examinations to determine if a serious health condition exists and evaluations of the condition.
- A “**regime of continuing treatment**” includes, for example, a course of prescription medication (e.g. an antibiotic) or therapy requiring special equipment to resolve or alleviate the health condition.
- It does not include taking of over-the-counter medications such as aspirin, antihistamines, or salves, or bed rest, drinking fluids, exercise, and other similar activities that can be initiated without a visit to a health care provider.
- A person has a “serious health condition” if he/she has one or more of the following conditions summarized below:

#### Inpatient Care:

- An overnight stay in a hospital, hospice, or residential medical care facility.
- Includes any period of incapacity or any subsequent treatment in connection with the overnight stay.

*(Note: If surgery is elective, and an overnight stay in the hospital is required, leave is covered.)*

#### Continuing Treatment by a Health Care Provider *(any one or more of the following)*

Incapacity and Treatment: A period of incapacity of more than three consecutive full calendar days, and any subsequent treatment or period of incapacity relating to the same condition, that also involves:

- Two or more in-person visits to a health care provider for treatment within 30 days of the first day of incapacity, unless extenuating circumstances exist. The first visit must be within seven days of the first day of incapacity; or
- At least one in-person visit to a health care provider for treatment within seven days of the first day of incapacity, which results in a regimen of continuing treatment under the supervision of the health care provider.

*Examples: the health provider might prescribe a course of prescription medication or therapy requiring special equipment.*

Pregnancy: Any period of incapacity due to pregnancy.

Chronic Conditions Requiring Treatments: Any period of incapacity due to or treatment for a chronic serious health condition which:

- Requires periodic visits for treatment by a health care provider at least twice a year; and
- Recurs over an extended period of time; and
- May cause episodic rather than a continuing period of incapacity.

*Examples: asthma, migraine headaches, diabetes, epilepsy*

Permanent/Long-Term Conditions: A period of incapacity which is permanent or long-term due to a condition for which treatment may not be effective, but which requires the continuing supervision of a health care provider.

“**Serious health condition resulting in incapacitation that occurs during a pregnancy**” means:

- Prenatal medical appointments
- Pregnancy-related complications
- Recovery from pregnancies that do not end in a live birth
- Childbirth and delivery, and
- The period of time after the delivery during which the biological mother is certified by her doctor to be unable to perform the requirements for her job.
